Practical

WEEK-1

2520090041

V. Pavani

First time AWS user? Sign up for AWS (new) and build using AWS accounts with preconfigured defaults.

Advanced user? You're in the right place. Sign up here to create an AWS account where you have complete control over the initial account configuration and where your content is stored.

Not sure? Compare sign-up options to figure out what sign up is right for you.

Sign up for AWS (advanced)

Root user email address

Used for account recovery and as described in the AWS Privacy Notice

AWS account name

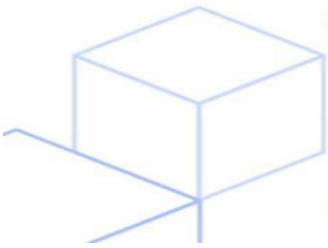

Choose a name for your account. You can change this name in your account settings after you sign up.

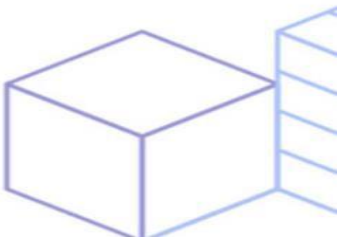

Verify email address

OR

Sign in to an existing AWS account

Security Verification

Type the characters as shown above

Verification answer

Reset Submit

© 2026 Amazon Web Services, Inc. or its affiliates. All rights reserved.

Improve the security of your account by registering **multi-factor authentication (MFA)** using one of the options below. This provides a second means of verifying your identity in addition to your password. Learn more

MFA device name

Device Name

Maximum 128 characters. Use alphanumeric and '+ = , . @ - _' characters.

Passkey or Security key

Authenticate using your fingerprint, face, or screen lock. Create a passkey on this device or use another device, like a FIDO2 security key.

AWS recommends using a passkey or security key as an MFA device as they provide the most protection against attacks such as phishing.

Authenticator app

Authenticate using a code generated by an app installed on your mobile device or computer.

Hardware TOTP Token

Authenticate using a code generated by hardware TOTP token or other hardware devices.

Give your coding agent current AWS knowledge and safe resource access

Agent Toolkit for AWS provides up-to-date documentation, tested procedures, and IAM guardrails configured through a single setup prompt in your IDE.

Get setup prompt | Free | Works with Kiro, Claude Code, Codex and more
